

TAPEBOOSTER

RGB signal amplifier 24 V – 576 Watts maximum

Ref. : 9865

Technical data

MAIN CHARACTERISTICS :

- Compatible with the tricolour and monochromatic ribbons
- Compatible with 24V ribbon power packs
- Max power : 576W @ 24V
- Control : Le TAPEBOOSTER uses the connected power supply to amplify the incoming 24V signal

Inputs :

- Power supply : 24V DC, 576 W max
- Ribbon : 24V DC (R, G, B, +)
- Output : Ribbon : 24V DC (R, G, B, +) (400Hz)
- Use only one channel per monochromatic ribbon
- IP20 : Cannot be used outdoors

ADDITIONAL CHARACTERISTICS :

- Dimensions : 107 x 65 x 24 mm
- Weight : 0.5 kg
- Power supply unit : 24V, DC (not supplied), ribbon power pack
